## **Eltel enters a new partnership agreement with Avinor for the delivery of telecom and electrical installations**

Eltel has signed a new partnership agreement with Avinor for the delivery of telecom installations and electrical services for 20 of Avinor's airports in Norway, including Oslo airport. The agreement is valid for three years, with an option for up to an additional five years. The contract value is estimated at approximately EUR 20 million (NOK 240 million) in total, with the first three years accounting for about EUR 8 million (NOK 90 million).

The agreement entered into force on December 16, 2024, and builds on a long-standing and strong collaboration between Eltel and Avinor. A key addition in this new agreement is the inclusion of electrical services, as well as collaboration across significantly more airports compared to the current agreement.
