## **Eltel signs Data Center contract with Hyperco valued at EUR 16 million**

**Eltel has been awarded a contract to build grid connections for Hyperco's new Data Center in Kouvola, Finland. The contract includes turnkey delivery of a 110 kV substation and cabling from the Hyperco's Data Center site to the Fingrid substation. The contract value is estimated to EUR 16 million.**

Eltel's Data Center offerings combine the company's competences in Power and Communications, providing comprehensive and efficient life-cycle services both inside and outside of the Data Center.

The construction work is set to begin in summer 2025, with Eltel's share of the work planned for completion in 2026.
