Eltel and the Swedish Transport Administration extends existing frame agreement by two years to a value of about EUR 46 million

Eltel and the Swedish Transport Administration continue an existing framework agreement for another two years based on an option in a current agreement. Estimated order value for the extension is about EUR 46 million.

The agreement includes securing the operation and maintenance of telecommunications as well as preparing for the expansion and upgrading of technology. The agreement covers shifting technologies; such as copper, fibre, transmission and radio.

Eltel and the Swedish Transport Administration's basic agreement runs until 1 December 2023, and thereafter this two-year option period runs until 1 December 2025.
